

CURRICULUM VITAE

Dr. SALAH SHEWEITA

Name : SALAH A. SHEWEITA
Nationality : Egyptian
Marital status : Married, with 3 children.
Date of Birth : October 17, 1958
Present address : Department of Biotechnology, Institute of Graduate Studies & Research, Alexandria University
 E-mail: <sssheweita@yahoo.com
Home Address Souter Str., Al-Azareta, Alexandria, Egypt
 Mobil No: +201125281245

Academic Degrees:

1981: *B.Sc.* in Biochemistry with average grade "Very Good",
 Faculty of Science, Department of Biochemistry, Alexandria University,
 Alexandria, Egypt
1987: *M. Sc.* in Biochemistry, Department of Biochemistry, Faculty of Science,
 Alexandria University, Egypt
1994: *Ph.D. in Biochemistry & Molecular Biology* under a joint supervision
 between Section of Molecular & Cellular Biology, University of California,
 Davis, California, 95616, USA. AND Alexandria University, Alexandria,
 Egypt

Brief Chronology of Employment:

1981-1987: Demonstrator, Department of Environmental Studies,
 Institute of Graduate Studies & Research, Alexandria University,
 Alexandria, Egypt
1987-1994: Assistant Lecturer, Department of Environmental Studies,
 Institute of Graduate Studies & Research, Alexandria University,
 Alexandria, Egypt
1994-1997: Lecturer of Biochemistry, Department of Environmental
 Studies, Institute of Graduate Studies & Research, Alexandria
 University, Alexandria, Egypt.
1997-2000: Lecturer of Biochemistry, Department of Bioscience and
 Technology, Institute of Graduate Studies & Research, Alexandria
 University, Alexandria, Egypt
April, 2000- August 2001: Associate Prof. of Biochemistry, Department of
 Bioscience and Technology, Institute of Graduate Studies &
 Research, Alexandria University, Alexandria, Egypt.
August, 2001- April 2005: Associate Prof. of Biochemistry, Department of
 Clinical Biochemistry, Faculty of Medicine, Taibah University,
 Al-Madinah.
April 2005-June 2012: Prof. of Biochemistry, Department of Clinical
 Biochemistry, Faculty of Medicine, Taibah University, Al-Madinah.
August 2012-July 30-2015 Head of Biotechnology Department, IGSR,
 Alexandria University.
Agust

Scholarships and Fellowships:

- 1990-1994:** Financial grant from the Egyptian Government for obtaining the Ph.D. degree in Biochemistry, Alexandria University, Egyptian Ministry of Higher Education, Egypt
- 1992-1994:** Visiting Fellowship, Section of Molecular and Cellular Biology, University of California, Davis, California, USA.
- 1996:** Visiting scientist to University of Wales, School of Biological Science, Bangor, UK.
- 1997:** Visiting scientist to University of Manchester, Paterson Institute for Cancer Research, Manchester, UK.

Conferences:

- 1990:** Participated in the "Second Symposium on Environmental Sciences", Institute of Graduate Studies & Research, Alexandria University, Alexandria, Egypt. (May, 1990)
- 1991:** Participated in the "Fifth International Conference on Carcinogenesis and Risk Assessment: Comparative Molecular Carcinogenesis; Relevance of Animal Models to the Study of Molecular Mechanism of Carcinogenesis" Texas, USA. (November, 1991)
- 1993:** Participated in the Joint Meeting of American Society for Biochemistry and Molecular Biology, Division of Biological Chemistry, American Chemical Society, San Diego, California, USA. (May-June, 1993)
- 1998:** Participated in the "fourth symposium on cytochrome P450 biodiversity and biotechnology", Strasbourg, France. (13-16 July, 1998).
- 1999** Participated in the International Conference on Environmental Management, Health, and Sustainable Development, Alexandria, Egypt (22-25 March)

My research interests are focusing on:

- 1- Nanotechnology and cancer treatment.
- 2- Molecular aspects of bladder cancers and cardiovascular diseases.
- 3- Metabolism of chemical carcinogens through studying the gene expression of different cytochrome P450
- 4- Alleviation of the toxicity of different chemical compounds such as anti-cancer drugs. In addition, my research interest is focused on the role of antioxidants in acceleration of bone healing after bone fractures. Also, alleviations of harmful effects of laparoscopic surgeries are included in this area.
- 5- My research interest is also linked to the development of vaccines against different pathogenic bacteria.
- 6- The sixth line of research is related to isolation and characterization of natural compounds and testing their anti-carcinogenic effects on different cancer cell lines.

- 7- Bioinformatics and drug design for treatment of hepatitis C, and cancers.
- 8- Development of Nano carriers for skin whitening.

October 2013

Awards:

- 1-Award of Alexandria university for Scientific Encouragement, 1998**
- 2-Award of A-Dawla in Advanced Technological Sciences, 1998.**
- 3-Award of Abdul-Hameed Shouman in Biological Sciences, 2004.Jordan**
- 4-Award of the best scientific researcher in KSA, 2008, from Scopus.**

Editor:

- 1- Academic Editor of PLoS One (USA) IF 3.56**
- 2- Lead Guest Editor of Oxidative Medicine & Cellular Longevity [IF 3.56, USA]**
- 2- Editorial Board of African Journal of Biochemistry Research [South Africa].**

المشاريع البحثية:

- 1- مشروع تحديد مركبات النيتروزأمين في مرضي البهارسيا بمصر- مشروع مشترك بين مصر و المانيا.
- 2- مشروع أثر تلوث الغذاء بمركبات الأفلاتوكسين على صحة المواطنين - مشروع مشترك بين مصر و الولايات المتحدة و مدحوم من المجلس الأعلى للجامعات - مصر..
- 3- دراسات عن إنزيم الباروكسونيز في مرضي القلب المعالجين بعقار الإستاتين- عمادة البحث العلمي – جامعة طيبة.
- 4 دراسات عن دور مضادات الأكسدة في معدل إلتئام كسور العظام بعد الجراحة في المرضى السعوديين - عمادة البحث العلمي – جامعة طيبة.

Referee for the following journals:

- 1- Journal of Biomedicine and Biotechnology [USA]**
- 2- Medical Science Monitor [USA]**
- 3- Molecular and cellular Biochemistry [Canda]**
- 4- Journal of Pharmacy and pharmacology [UK]**
- 5- Acta Tropica [Sweden]**

- 6- Cellular and Molecular biology letters [Poland]**
- 7- Journal of Hepatology [Spain]**
- 8- Reviewer for African Journal of Biotechnology [South Africa].**
- 9- Human Reproduction [UK].**
- 10- Pharmacology and Environmental Toxicology, Canada.**
- 11- Oriental Pharmacy and Experimental Medicine, South Korea.**

Supervisor on 40 Master and 5 PhD thesis at Department of Biotechnology, Alexandria University, Egypt

Teaching Experience.

A- Post-experience Training Courses (These Courses for the staff members of the Egyptian Universities).

- March 1996: Enzymes purification and characterization.
- March 1997: Enzymes purification and characterization.
- April 1997: Assessment and control of environmental pollutant.
- April 1998: Molecular Biology Techniques.
- April 1999: Modern Techniques in Genetic Engineering.
- Feb. 2000: Technology of DNA manipulation.
- April 2001 Advanced Genetic Engineering

B- Courses for Postgraduate Students:

- Biochemistry including metabolism of carbohydrates, proteins, and lipids.
- Biochemical Analysis.
- Bioenergetics
- Enzymes and Macromolecules.
- Enzymes purification and characterization
- Genetic Engineering.
- Biological Chemistry
- Metabolism of Macromolecules.

C- Courses for Undergraduate Medical Students:

- Clinical biochemistry to second and third year-medical students.
- Molecular Biology to fourth year medical students.
- Biochemistry, dental students, Tabiah University, KSA

Research and Professional Experiences:

Molecular Biology Techniques:

A- DNA and RNA Manipulation:

1. Isolation and purification of DNA and RNA from human, animal and plant tissue, as well as microorganisms.
- 2- Analysis of purified DNA using agarose gel electrophoresis
2. Isolation and purification of plasmids.
3. Isolation and purification of cDNA.

4. Cloning and isolation of cloned genes.
5. Transformation of recombinant DNA (cloned genes) into bacterial strains.
6. Identification and selection of positive colonies.
7. Immunoscreening of cDNA expression.
8. Southern transfer of DNA.
9. DNA Fingerprinting
10. DNA sequencing

B- Polymerase Chain Reaction (PCR) Technique:

1. Standard PCR.
2. Inverse PCR.
3. Cloning of PCR products.
4. Long Distance PCR
5. RT-PCR
6. PCR Primer
7. Other PCR Methods
8. PCR Downstream Application

C- DNA-Protein Interaction and polyacrylamide gel electrophoresis:

- 1- Transfer of expressed proteins from SDS-PAGE to nitrocellulose membrane (Western Blotting) and detection of protein subunits by either colorimetric or chemiluminescence technique.
- 2- Footprinting
- 3- Methylation Interference

E- Biochemical Techniques:

- Extraction and preparation of mixed-function oxidase enzymes from the liver of the experimental animals.
- Determination of total content of cytochrome P-450.
- Expression of different P450 isozymes such as 2E1, 2B1/2, 4A, 1A1 and 2C6.
- Assay of the hepatic activity of Aryl Hydrocarbon (Benzo(a)pyrene) hydroxylase.
- Determination of the hepatic content of cytochrome b₅.
- Determination of free radicals.
- Assay of NADPH-cytochrome c reductase activity.
- Assay of N-nitrosodimethylamine N-demethylase activity.
- Assay of ethoxycoumarin O-deethylase activity.
- Assay of ethoxyresourfin O-deethylase and pentoxyresourfin O-depentylase activities
- Determination of both oxidized and reduced form of glutathione in the liver of human and experimental animals.
- Assay of glutathione reductase activity.
- Assay of glutathione S-transferase activity.
- Expression of different glutathione S-transferase isozymes.
- Assay of heme oxygenase activity.
- Determination of the hepatic content of microsomal protein.
- Determination of the binding capacity of carcinogens such as benzo(a)pyrene metabolites with DNA *in vivo* and *in vitro*.

LIST OF PUBLICATIONS
